

## Do you have upper limb loss or amputation?

We need your help to provide the prosthetic and orthotic students with opportunities to practice their clinical skills.

Patient volunteers help students practice hands-on care. As a patient volunteer, your visit will focus on developing students' skills such as taking a patient history, performing a physical exam, taking a cast, and fitting a test prosthesis.

Patient volunteers are compensated for their time and reimbursed for parking fees. Experienced Prosthetists will be present to oversee the student work.

**What:** Upper Limb Prosthetics

**Where:** 1959 NE Pacific St., Room BB804  
Seattle, WA 98195

**Phone:** 206-685-3444
