RE: UW Tacoma Master of Science in Geospatial Technologies Five-Year Review (2019-2020)

This memo describes outcomes from the May 21st, 2020 Graduate School Council meeting to discuss the UW Tacoma Master of Science in Geospatial Technologies five-year review. This degree is offered by the School of Urban Studies at the University of Washington at Tacoma.

The Council commends the faculty and staff for the work they have invested in building this degree program.

The Graduate School Council recommends that the degree program be granted continuing status, with subsequent review to occur during the UW Tacoma School of Urban Studies program review (2024-2025). We concur with the Graduate School Council's recommendation.

cc: Patricia Moy, Associate Vice Provost for Academic and Student Affairs, Office of the Provost
Mohamed Ali, Director of Graduate Studies
Members of the Graduate School Council
Becky Corriell, Director, Academic Program Review & Strategy, The Graduate School
