

Responsibility in AI Systems & Experiences (RAISE) at the University of Washington presents:

Student Research Highlights

Friday May 27, 2022, 9-10am PT

Join: <https://washington.zoom.us/j/94636255672>

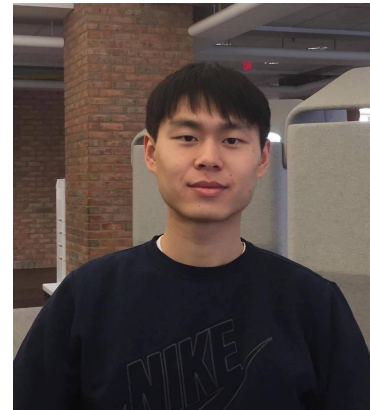

Trischa Schramm, MA student, Communication Leadership

Title: Designing for Positive Social Impact with AI

Sahil Verma, PhD student, Paul G. Allen School of Computer Science & Engineering

Title: Story about datasets and explainability in ML

Yiwei Yang, PhD student, Information School

Title: Unifying Fairness and Explanations with GWAD: Co-Regularization of Procedural and Distributive Fairness in Neural Networks

Bin Han, PhD student, Information School

Title: Inpainting Spatiotemporal Urban Data with 3D Partial Convolutions

RAISE is a UW-wide group of students and faculty interested in the broad space of responsible AI, trustworthy machine learning, human-centered computing and data science. As part of this group, our mission is to engage in scholarly, educational, and outreach activities that lead to foundational research in these areas. <https://www.raise.uw.edu>.
